

Our *mission* is to improve the quality of life of our people through economic development while protecting our land and preserving our culture and heritage.

ABOUT ARCTICOM

Arcticom, LLC, a subsidiary of Bering Straits Native Corporation, is the industry leader for telecommunications solutions. We engineer, install, maintain and decommission communications equipment in the most remote places, facing the most extreme weather conditions.

Arcticom's expertise and strength derives from our experience working in the extreme Arctic and Subarctic conditions. Let us be your communication experts for: FCC licensing assistance, microwave design/build, fiber optics, emergency response equipment integration and paging systems. We also install base stations, repeaters, tower-site system, bi-directional amplifiers, mobile radios,

all types of antennas and an array of security equipment. When planning your communication projects, plan on partnering with Arcticom LLC.

WE ARE CONFIDENT THAT OUR PRODUCTS SET THE INDUSTRY STANDARD.

As a certified 8(a) Federal Contracting Company, Arcticom LLC has the ability to respond to a changing business environment while providing quality products and services. As the Federal Manufacturer's Representative for Motorola Solutions Inc, Arcticom can serve as your one-stop shop for equipment sales, leasing, installation

and maintenance. Currently, we service 185 Motorola Solutions Federal accounts, providing technical/design, sales and service advice during the procurement process. Arcticom also performs preventative maintenance on the Alaska Land Mobile Radio System (ALMR), which is a shared system between the Department of Defense (DOD), local/federal government agencies and the state of Alaska.

The fundamental objective of the contract is to provide reliable and secure communications for agency autonomous day-to-day operations and first responders, especially during real-time emergencies, critical situations, and multiple agency exercises.
